Overall Length:

1.440 inches

Overall Width:

Between 0.384 inches and 0.404 inches

Voltage In Volts And Current Type:

5.0 dc

Special Features:

Thermal shock and vibration, high frequency per mil-std-202

per mil-std-202

Precious Material And Location:

Leads gold

Precious Material And Weight:

0.040 gold grains, troy

Precious Material:

Gold

General Description:

9,000 foot lamberts; clear lamps; life 5,000 hours min

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
