Current Rating:

13.000 milliamperes

Voltage In Volts And Current Type:

5.0 dc

Surface Treatment:

Nickel

General Description:

Operating temperature range minus 5 to plus 100 degrees celsius; storage temperature range minus to plus 125 degrees celsius; average brightness 13 , 000 (ft/l); sunlight readable; low power; night vision goggle readable; wide viewing angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
