Overall Length:

2.333 inches

Overall Width:

3.750 inches

Lens Color:

Amber 1st row 1st position horizontal

Multilamp Circuit Type:

Four lamp separate

End Application:

Aircraft t-58 engine

Mounting Method:

Panel

Lens Legend:

Op 2nd row 1st position horizontal 4way split display division c

Special Features:

Multi-light oiltight controls; 4 24 volt resistors and 4 no. 756 lamps

Style Designator:

Multiple strip type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A065a0
