**Overall Length:**

2.333 inches

**Overall Width:**

3.750 inches

**Lens Color:**

Amber 1st row 1st position horizontal

**Multilamp Circuit Type:**

Four lamp separate

**End Application:**

Aircraft t-58 engine

**Mounting Method:**

Panel

**Lens Legend:**

Op 2nd row 1st position horizontal 4way split display division c

**Special Features:**

Multi-light oiltight controls; 4 24 volt resistors and 4 no. 756 lamps

**Style Designator:**

Multiple strip type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A065a0
