Special Features:

Integral 24v dc transformer; includes isolated relay contact; full wave dc rectifier converts 208-240v ac to 24v dc for power supply to low voltage sensors; has class 2 plenum leads for low voltage hookup

General Description:

208-240v; 50/60hz; current 20a ballast; load 4500w

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
