Overall Length:

48.000 inches

Overall Height:

6.375 inches

Overall Width:

11.750 inches

Lamp Base Type Accommodated:

Medium bipin

Illumination Directing Device Type:

Louver

Voltage Rating In Volts:

120.0 ac

Mounting Method:

Surface

Lamp Type Accommodated And Quantity:

1 fluorescent

Special Features:

Includes an 8 cell parabolic lens; 120 volt standard output (bf .90) electronic ballast; uses f32t8 lamp

Material:

Steel body

Surface Treatment:

Anodize illumination directing device

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
