**Overall Length:**

48.000 inches

**Overall Height:**

6.375 inches

**Overall Width:**

11.750 inches

**Lamp Base Type Accommodated:**

Medium bipin

**Illumination Directing Device Type:**

Louver

**Voltage Rating In Volts:**

120.0 ac

**Mounting Method:**

Surface

**Lamp Type Accommodated And Quantity:**

1 fluorescent

**Special Features:**

Includes an 8 cell parabolic lens; 120 volt standard output (bf .90) electronic ballast; uses f32t8 lamp

**Material:**

Steel body

**Surface Treatment:**

Anodize illumination directing device

**Shape:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A06300
