**Overall Length:**

24.000 inches

**Overall Height:**

6.375 inches

**Overall Width:**

23.750 inches

**Lamp Base Type Accommodated:**

Medium bipin

**Illumination Directing Device Type:**

Louver

**Voltage Rating In Volts:**

277.0 ac

**Mounting Method:**

Surface

**Lamp Type Accommodated And Quantity:**

3 fluorescent

**Special Features:**

Includes a 9 cell parabolic lens; 120 volt standard output (bf .90) electronic ballast; uses f31t8 lamps

**Material:**

Steel body

**Surface Treatment:**

Anodize illumination directing device

**Shape:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A06300
