Overall Length:

5.700 inches

Overall Height:

5.200 inches

Overall Thickness:

0.285 inches

End Application:

Front panel assembly

Emitted Light Characteristic:

Green

Panel Material:

Plastic

Criticality Code Justification:

Agav

Product Name:

Inavy)panel, incicator, air (drawing)panel, plastic integrally illuminated(4058105)

Special Features:

Panel color: black with white marking

Special Markings:

Manufacturers process designation and fscm number; part or identifying numbers; month and year of manufacture; voltage rating; type of lamps; number of lamps; panel illumination color, all on the back of the panel

Quantity:

1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-b
