Hazardous Locations/environmental Protection:

Shock resistant and heat resistant and vaportight and moisture resistant

Overall Length:

9.125 inches

Overall Diameter:

4.250 inches

Lamp Base Type Accommodated:

Medium screw

End Application:

Oe-571/wsc rc

Voltage Rating In Volts:

120.0 ac

Lamp Type Accommodated And Quantity:

1 incandescent

Lamp Protection Device:

Closed end guard

Product Name:

Vapor-tight and hazardous location light

Special Features:

Stainless steel hardware; 4 inch die cast aluminum housing for ceiling mounting; hardwire connections; npt female threaded hubs for conduit connections; glass globe protected by aluminum guard; gasketing forms vaportight seal; 100w a19 frosted bulb 1728k91 not included; fixture is suitable for indoor/outdoor use

Material:

Glass lens

Shape:

Tapered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
