Overall Length:

4.000 inches

Overall Height:

14.500 inches

Overall Width:

12.500 inches

Ac Voltage Rating:

120.0 volts

End Application:

Machinery control system

Indicator Type:

Light and switch

Special Features:

Flush mounting, unground neutral, man overboard, rotary switch for task lighting, alarm dimmer, dual power sources, power failure indicator, 4 dual lamp circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
