**Overall Length:**

4.750 inches

**Overall Diameter:**

3.625 inches

**Lens Color:**

Red

**Light Beam Motion:**

Flashing

**End Application:**

Pumping u

**Voltage Rating In Volts:**

Between 12.0 dc and 48.0 dc

**Lamp Type Accommodated And Quantity:**

1 incandescent

**Product Name:**

High intensity beac

**Special Features:**

Name on tech data-high intensity strobe module; part of 105 series-adapter beacon adverse location signal (type 4x marine rated, div 2, ul 1971 listed model); 8 joule strobe; peak candlepower-800, 000; current-0.05 a.

**Shape:**

Round

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A06300
