Lens Color:

Red, aviation

Lens Transparency:

Transparent

Light Function:

Anticollision

End Application:

Hazard markings for air navigation

Voltage Rating In Volts:

220.0 ac

Features Provided:

Housing and watertight seal

Lamp Type Accommodated And Quantity:

2 incandescent

Lens Type And Quantity:

2 dome, notched

Lens Surface Condition:

Smooth face

Product Name:

Aviation obstruction lights

Special Features:

Double red led light unit with junction box; wiring access cover and secured with a tether; cast enclosure/cover-powdercoat aviation yellow-salt/fog tested per mil-std-810e; cover tether and all hardware is stainless steel; photoelectric controller included

Material:

Aluminum alloy body

Shape:

Straight

Special Test Features:

Faa & icaq type b (32cd)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
