End Application:

A-msg stryker

Product Name:

Light emitting diode

Special Features:

Package , white p-lcc-2 package, colorless clear resin, extremely wid viewing angle, yellow, wavelength 587 nm, suitable for all smt assembly methods, optical indicator, backlighting, automotive dashboard, ir reflow soldering and ttw soldering

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
