End Application:

Panel, forward hovering

Voltage In Volts And Current Type:

28.0 ac

Product Name:

Led indicator

General Description:

Solderless quick-connect common termination system; dripproof w/high impact and emi shielding; standard designation; 2 inputs, top quadrants coupled and bottom quadrants coupled; horizontal split circuit, two commons

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
