End Application:

Missile hatch status panel

Voltage In Volts And Current Type:

28.0 ac

Product Name:

Led indicator

General Description:

Solderless quick-disconnect common termination system; indicator; drip-proof w/high impact shock and emi shielding; standard design; single circuit, one common; one input, all 4 quadrants connected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
