NSN 6210-01-610-2580

Light Emitting Diode - Page 1 of 1

Fiig: A110a0

View Online at https://aerobasegroup.com/nsn/6210-01-610-2580 **Overall Length:** 1.250 inches **Overall Width:** 0.125 inches **Electrode Internally-electrically Connected To Case:** Cathode **Mounting Method:** Press fit **Semiconductor Material:** Indium phosphide Voltage Rating In Volts Per Characteristic: 2.4 forward voltage, dc **Current Rating Per Characteristic:** 200.0 milliamperes peak forward surge current **Color Tone Produced Per Source:** Amber lens **Maximum Operating Tempurature Per Measurement Point:** 100.0 degrees celsius ambient air **Product Name:** High performance allngap led lamps **Special Features:** Utilized on multiple applications; reverse voltage, 5 v; junction temperature 110 degrees celcius; thermal resistance, 290 **Terminal Type And Quantity:** 2 pin Shelf Life: N/a **Unit Of Measure:** Demilitarization: No
