**Inclosure Material:**

Metal

**Function For Which Designed:**

Visible light emitting

**End Application:**

2430-01-581-8572

**Voltage Rating In Volts Per Characteristic:**

9.0 source supply voltage and 48.0 source supply voltage

**Current Rating Per Characteristic:**

4.0 amperes total power dissipation

**Power Rating Per Characteristic:**

40.0 watts total power dissipation

**Color Tone Produced Per Source:**

White semiconductor

**Product Name:**

Floodlight, led

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A110a0
