NSN 6210-01-620-5032

Light Emitting Diode - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6210-01-620-5032 **Inclosure Material:** Metal **Function For Which Designed:** Visible light emitting **End Application:** 2430-01-581-8572 Voltage Rating In Volts Per Characteristic: 9.0 source supply voltage and 48.0 source supply voltage **Current Rating Per Characteristic:** 4.0 amperes total power dissipation **Power Rating Per Characteristic:** 40.0 watts total power dissipation **Color Tone Produced Per Source:** White semiconductor **Product Name:** Floodlight, led Shelf Life: N/a **Unit Of Measure: Demilitarization:** No

Fiig: A110a0
