Width:

2.145 inches

Thickness:

2.143 inches

Length:

7.125 inches

Functioning Signal Method:

Indicator lights

Features Provided:

Flasher unit and wiring provision

Inclosure Material:

Aluminum alloy

Operating Function And Method:

Actuation lever

Voltage In Volts And Current Type:

12.0 dc

Inclosure Surface Treatment:

Paint

Style Designator:

Automatic/manual cancelling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07600
