Overall Length:

5.690 inches

Overall Width:

2.190 inches

Overall Thickness:

Between 0.197 inches and 0.243 inches

End Application:

Aircraft, freedom fighter f-5

Indicator Type:

Light

Panel Material:

Plastic

Special Features:

Plate, instruction- 3a36dsi control panel; -5 version; plate shall meet the requirements of 24-00900

Specification Data:

81349-mil-p-7888/superseded government specification

Specification Or Standard:

V type and 1-2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
