Overall Length:

3.500 inches

Overall Width:

2.500 inches

Ac Voltage Rating:

Between 105.0 volts and 125.0 volts

Overall Thickness:

1.375 inches

End Application:

Aircraft launching recovery equipment

Mounting Configuration:

Four 4-40 unc-2b 0.375 in. Dia.

Indicator Type:

Light

Panel Material:

Plastic

Special Features:

Five connections 4-40 unc-2a screw, brass per qq-b-613 alloy 268, strip, half-hard and nickel plated per qq-n-290, class 1, grade a; bottom

mtg holes have brass inserts per qq-b-613, alloy 260, rod, half-hard; ambient operating temperature -20 degrees to +71 degrees celcius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
