Overall Length:

5.558 inches

Overall Height:

6.594 inches

Ac Voltage Rating:

5.0 volts

Indicator Type:

Light

Panel Material:

Plastic

Special Features:

Panel lighting shall meet requirements of military specification mil-I-85762, lighting, aircraft interior, aviators night vision imaging system (anvis) compatible

Functional Description:

Face plate, control panel 41792-1

Special Markings:

App; control; auto shut down mode; press to reset; high exh temp; over speed; low oil press; shut off; ckt bkr control; off; on; run; start

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T122-b
