Overall Length:

5.688 inches

Overall Height:

2.563 inches

Ac Voltage Rating:

5.0 volts

Indicator Type:

Light

Panel Material:

Plastic

Special Features:

Panel lighting shall meet requirements of military specification mil-I-85762, lighting, aircraft interior, aviators night vision imaging system (anvis) compatible

Functional Description:

Face plate, control panel 41788-1

Special Markings:

Cabin htr; vent; on; off; heat; off; hi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
