Overall Length:

8.880 inches

Overall Width:

5.630 inches

Overall Thickness:

Between 0.211 inches and 0.257 inches

End Application:

Pdu/cnu/mc130

Indicator Type:

Light

Panel Material:

Plastic

Special Features:

5 volts

Special Markings:

Power 2

Specification Data:

81343-as7788 professional/industrial association specification

Specification Or Standard:

1-nvis green a class and 5 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
