Overall Length:

7.750 inches

Overall Width:

2.780 inches

Dc Voltage Rating:

4.5 volts and 5.0 volts

Overall Thickness:

0.250 inches

End Application:

Usaf/retro, f-16 aircraft

Emitted Light Characteristic:

Nvis compatible in accordance with mil-I-85762

Indicator Type:

Light

Panel Material:

Plastic

Special Markings:

Misc; emc; laser arm; master arm; adv mode; roll; pitch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
