Overall Height:

0.090 inches

Overall Diameter:

2.730 inches

Unthreaded Mounting Hole Diameter:

0.164 inches all mounting facilities

End Application:

Model ms6) actuator, ele

Mounting Facility Type And Quantity:

6 unthreaded hole all mounting facilities

Special Features:

Ginner diameter of retainer is 1.875 in.; holes are drilled through with drill no. 13 & countersunk for no. 8 flat head screw & evenly spaced on 2.375 dia. B.C.; outer edge is chamfered 0.02 x 45 degrees

Material:

Steel comp 304

Material Specification:

Qq-s-763 federal specification single material response

Style Designator:

Cup

Supplementary Features:

Drawing calls this: retainer, msq position indicator lens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
