End Application:

F-15 support equipment

Current Rating:

20.000 milliamperes

Voltage In Volts And Current Type:

220.0 ac/dc

Product Name:

Indicator, 220v

Special Features:

Indicator with built-in resistor; front dimension 24x36 mm; screw terminal connection;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
