End Application:
C-17a aircraft
Features Provided:
Wiring provision
Inclosure Material:
Aluminum
Voltage In Volts And Current Type:
28.0 dc
Product Name:
Controller; dimming-priority controller system
Special Features:
Converts encoder signal into 6 dc outputs for dimming units.
Material Specification:
Mil-std-1568 military standard 1st material response and mil-std-1587 military standard 2nd material response
Style Designator:
Dimmer
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07600
Mil-std (military Standard):
Mil-std-1568 spec.
