Overall Length:

15.480 inches

Overall Height:

5.280 inches

Overall Width:

11.700 inches

Special Features:

Weight, 18.75 pounds; voltage, 115 vac, 400 hz; description, (task 33-42-07-87-801); (subtask 33-42-07-87-001-a01); (graphic 33-42-07-99-802-a01); the landing light consists of a 600-watt lamp, an ac motor, a transformer, and a drivetrain (gearbox assembly) mounted on a baseplate; operation, (task 33-42-07-87-802-a01); (subtask 33-42-07-87-002-a01); refer to figure 2001 (graphic 33-42-07-99-804-a01); the landing light operates on 115 vac and is controlled by a three-position switch in the flight deck; the three positions are extend, on and retract; leading particulars (task 33-42-07-87-803-a01); (subtask 33-42-07-87-003-a01)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A06300
