Hazardous Locations/environmental Protection:

General purpose-nema type 1

Overall Height:

2.000 inches

Overall Diameter:

5.500 inches

Lamp Base Type Accommodated:

Three wire leads

Lens Color:

Colorless

Lens Transparency:

Translucent

Wiring Provision Method:

Individual wire

End Application:

Boat, drive, 60

Wiring Provision Length:

4.00 inches all provisions

Voltage Rating In Volts:

Between 10.0 dc and 30.0 dc

Mounting Method:

Unthreaded hole

Features Provided:

Heat dissipating and manual voltage selector

Lens Type And Quantity:

1 convex, semi-dome

Lens Surface Condition:

Concentric rings face

Product Name:

Light, dome

Special Features:

White/red selectable

Material:

Plastic polycarbonate lens

Surface Treatment:

Chromium body

Shape:

Round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06300
