Overall Length:

4.625 inches

Overall Width:

4.500 inches

Light Beam Motion:

Flashing

Product Name:

Beacons flashing xenon 105 series

Special Features:

Material corrosion resistant nema type 4x; base material gray; glass-reinforced thermoplastic polystyrene resin; shatter-resistant double fresnel polycarbonate lens; flash rate 65 fpm; suitable for indoor, outdoor and marine applications; for outdoor use, lens should face up; option for panel, conduit or wall mounting; operating voltage 24v dc; current 0.3a; lens color - amber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06300
