Lamp Base Type Accommodated:

Medium bipin

Wiring Provision Method:

Cable assembly

Illumination Directing Device Type:

Hood

Light Adjustment Method:

Rigid sectional arm

Light Adjustment Limits:

34.0 inches vertical

Wiring Provision Length:

108.000 inches single provision

Voltage Rating In Volts:

115.0 ac

Mounting Method:

Clamp

Features Provided:

Switch

Lamp Type Accommodated And Quantity:

2 fluorescent

Material:

Steel reflector

Surface Treatment:

Enamel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
