Overall Length:

17.250 inches

Voltage Rating In Volts:

115.0 ac

Mounting Method:

Hook

Lamp Type Accommodated And Quantity:

2 incandescent

Lamp Protection Device:

Closed end wire guard

Product Name:

Utility light

Special Features:

Service use: temp m125 to +125 degrees f; dry or damp locations; switch mounting on position is up; complies with requirements of ansi/mfpa-70 national electric code; grounded switches and metallic guards; housing, plug and cord colors black; has 2 100 watt lamps; hook assembly consists of a steel bar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06300
