Hazardous Locations/environmental Protection:
Dripproof
Overall Length:
18.000 inches
Overall Height:
4.812 inches
Overall Width:
14.000 inches
Lamp Base Type Accommodated:
Medium bipin
Mounting Base Length:
10.812 inches
Mounting Base Width:
4.812 inches
Illumination Directing Device Type:
Diffusing cover glass
Voltage Rating In Volts:
120.0 ac
Mounting Method:
Base
Features Provided:
Features Provided: Removable light filter and switch
Removable light filter and switch
Removable light filter and switch Lamp Type Accommodated And Quantity:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp Shelf Life:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp Shelf Life: N/a
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp Shelf Life: N/a
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp Shelf Life: N/a Unit Of Measure:
Removable light filter and switch Lamp Type Accommodated And Quantity: 2 fluorescent Special Features: Red filter Material: Aluminum alloy reflector Surface Treatment: Paint reflector Furnished Items And Quantity: 2 lamp Shelf Life: N/a Unit Of Measure: Demilitarization:
