Overall Length:

11.000 inches

Overall Diameter:

2.000 inches

Special Features:

Color clear, person powered light source, no batteries required, magnetic force charging system, capacitor energy storage cell, high brightness white light led, operational at and ocean depth of 180 feet, 6 foot diameter circle of soft illumination at a distance of 30 feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
