Overall Length:

2.750 inches

Overall Diameter:

1.470 inches

Lamp Base Type Accommodated:

Admedium screw

Light Beam Motion:

Fixed

Lamp Type Accommodated And Quantity:

1 xenon

Battery Type And Quantity Required:

2 dry

Special Features:

Digital regulator circuitry ensures consistent light output, shock-proof lexeon star led rated for thousands of hours of usage, white for brightness, high color temperature, and true to life colors

Material:

Aluminum body

Shape:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
