Overall Length:
5.190 inches
Overall Diameter:
1.625 inches
Lamp Base Type Accommodated:
Admedium screw
Light Beam Motion:
Fixed
Lamp Type Accommodated And Quantity:
1 xenon
Battery Type And Quantity Required:
2 dry
Special Features:
Digital regulator circuitry, shock-proof lexeon star led rated for thousands of hours or usage, white for brightness, high color temperature,
and true to life colors
Material:
Plastic body
Shape:
Straight
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A06300
