End Application:

6260-01-544-4787; nighthunter searchlight

Product Name:

Nighthunter filter 850nm near infrared

Special Features:

Allows projections of undetectable infrared light and significantly increases the range for detection, recognition or identification when using night vision or low-light video devices. Made of high quality, tempered glass that blocks visible light (<800nm) and transmits near infrared light (>45% transmittance @ 850nm, 88% @ 920nm). Made from aluminum anodized to mil-a-8625 for protection and easily screws into the front of nighthunter.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
