Product Name:

Crew-served weapon lite kit

Special Features:

Cswl includes a remote-controlled beam width feature in which the operator can alter the beam width between a 1 degree spot and a 25 degree flood and a non-lethal strobe function that effectively disables and disorients a target in situations where lethal force is not warranted. All of the cswl features are controlled with the mba-8406-mm metal box switch mounted at the rear of the weapon. The cswl weighs just 3.85 pounds and light targets out to 3000m visible/white light and 1200m infrared light. The cswl system is rated at ip66, features mil. Spec. Metal connectors. It has a field-replaceable front lens and lamp assembly and a built-in interface that mounts the light to any mil-std-1913 rail

Shelf Life:

N/a

Unit Of Measure:
