Overall Length:

10.000 inches

Overall Diameter:

2.250 inches

Lens Color:

White, translucent

Lens Transparency:

Translucent

Product Name:

Maglite pro led flashlight, d batteries, black

Special Features:

Weather-resistant seals, aluminum body, & diamond knurled design; offers a powerful projecting beam that adjust from spot to flood with the turn of the head; output: 274 lumens; intensity: 33,560 candela; runtime: 12h 45min; weight with batteries: 23.0 oz; anodized aircraft quality aluminum

Material:

Aluminum alloy body

Shape:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
