Lens Color:

Colorless

Cartridge Style:

Short cylindrical

Cartridgelength:

1.140 inches

Cartridgediameter:

0.330 inches

Primary Lamp Type:

Light emitting diode

Base Style:

Cartridge two pin polarized

Lens Light Transmission Characteristic:

Transparent

Forward Voltage Rating In Volts And Current Type:

5.000 dc

Rated Average Life:

Indefinite long

Special Features:

20 ma; red light emitting diode

Material:

Plastic lens

Material:

Plastic lens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
