Lens Color:

Yellow

Cartridge Style:

Short cylindrical

Cartridgelength:

1.140 inches

Cartridgediameter:

0.330 inches

Primary Lamp Type:

Light emitting diode

Base Style:

Cartridge two pin polarized

Lens Light Transmission Characteristic:

Transparent

Forward Voltage Rating In Volts And Current Type:

1.800 dc

Rated Average Life:

Indefinite long

Special Features:

Black anodized body; maximum voltage 5 with ext resistor; nickel silver pins; 20ma yellow light emitting diode

Material:

Plastic lens

Material:

Plastic lens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
