Overall Length:

14.950 inches

Major Components:

Lamps 2

End Application:

E-8c joint stars aircraft

Component Quantity:

2

Special Features:

Original name: lamp assembly, 2 segment flexible lamp. Brightness: 21 foot lamberts . Service life: 2000 hours . Power requirements: input power supply of 115vac @400hertz. Color: aviation green

Functional Description:

Used for emergency floor lighting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
