Overall Length:

1.270 inches

Bulb Diameter:

0.250 inches

Average Life Rating In Hours:

30.0

End Application:

Aircraft, awacs, e-3a

Emitted Light Characteristic:

Colorless

Voltage Rating:

2.500 volts

Features Provided:

Carbon filament

Base Style:

Wire leads, down

Bulb Style:

E (elliptical)

Bulb Designator:

T-1 3/8

Bulb Light Transmission Characteristic:

Transparent

Filling Gas Type:

Any acceptable

Rated Average Life:

Hours

Burning Position:

Any acceptable

Product Name:

Lamp incandescent

Special Features:

Wire leads tin plated for solderability

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
