Lens Color:

Colorless

Cartridge Style:

Short cylindrical

Cartridgelength:

1.140 inches

Cartridgediameter:

0.330 inches

Primary Lamp Type:

Light emitting diode

End Application:

Hx unique

Base Style:

Cartridge two pin polarized

Lens Light Transmission Characteristic:

Transparent

Forward Voltage Rating In Volts And Current Type:

2.100 dc

Rated Average Life:

Not rated

Special Features:

Led panel mounted cartridge; tinted clear lens; ul green led; black bezel; standard flat cylindrical

Material:

Plastic lens

Material:

Plastic lens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
