Light Output Rating:

95.000 lumens single rating and 125.000 lumens single rating

Voltage Rating:

6.000 volts

Features Provided:

Waterproof terminals

Product Name:

Laser or tactical light system

Special Features:

Interchangeable with Idi's tactical lights-one housing can be used for either the laser or tactical light; beam diameter: 8 mm @ 25 meters (laser spec); battery: two 3-volt cr123a lithium (laser spec); light output: xenon-95 lumens, led-125 lumens (tactical light spec); weight (with battery): 3.1 oz; material: high impact polymer; length: 3.2 in, width: 1.4 in, height: 1.3 in; waterproof to 20 meters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07900
