**Lens Color:**

Colorless

**Cartridge Style:**

Short cylindrical

**Cartridgelength:**

1.140 inches

**Cartridgediameter:**

0.285 inches

**Primary Lamp Type:**

Light emitting diode

**End Application:**

Spaceradar

**Features Provided:**

Fluted lens

**Base Style:**

2-pin

**Product Name:**

Light indicator

**Special Features:**

No. Of led chips-1, t1-3/4 6 chip led; led emitting color and wavelength-ultra yellow (590-595nm); standard operating voltages/ma-28v/15; housing color-black, panel mount; name on tech data-bi-pin indicator light cartridge (mounting hole dia. 0.290 in.)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07900
