Lens Color:

Colorless

Cartridge Style:

Short cylindrical

Cartridgelength:

1.140 inches

Cartridgediameter:

0.285 inches

Primary Lamp Type:

Light emitting diode

End Application:

Spaceradar

Features Provided:

Fluted lens

Base Style:

2-pin

Product Name:

Light indicator

Special Features:

No. Of led chips-1, t1-3/4 6 chip led; led emitting color and wavelength-ultra hi eff. Red (623-630nm); standard operating

voltages/ma-28v/15; housing color-black; panel mount; name on tech data-bi-pin indicator light cartridge (mounting hole dia. 0.290 in.)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
