Light Beam Type:

Spot

Voltage Rating:

Between 120.000 volts and 240.000 volts

Features Provided:

Waterproof terminals

Burning Position:

Any acceptable

Product Name:

Birns snoopers rugged deep sea light

Special Features:

Consists of aluminum housing, tempered borosilicate glass lens, anodized spun aluminum reflector, alkyd enamel paint, gold-plated copper electrical contacts, multistrand copper cable, so neoprene jacketed delrin locking sleeve; wattage 300-1000 depending on size bulb; 600 volt cable voltage; 15 amp cable current rating; diffused clear frosted lens (optional blue); yoke mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07900
